CA/WA | (425) 979-9344 | kkita5770@sdsu.edu | www.linkedin.com/in/kohki-kita | <https://github.com/kohkikita>

EDUCATION

San Diego State University

B.S. in Computer Engineering

San Diego, CA

June 2026

Relevant Coursework: Data Structures (C++), Embedded Systems (C), Advanced Programming (Python), Microprocessors (Verilog), Windows Database and Web Programming (SQL, HTML).

WORK EXPERIENCE

Aztec Electric Racing

Controls Software Engineer

San Diego, CA

August 2024 - Present

- Enhanced battery management system software using ESP32 and the Arduino platform.
- Developed and implemented a flag-based system to optimize cell balancing functionality.
- Led the integration of CAN communication into the battery management system, enabling transmission of error and flag messages to the driver.

Cyan Swim Academy

Private Swim Instructor

Kirkland, WA

March 2021 - August 2024

- Taught basic skills of swimming to over 30 kids.
- Created comprehensive fitness programs tailored to the needs and goals of each individual.
- Provided emergency first aid and CPR as needed.

PROJECTS

AVR Microcontroller ADC with LED

November 2024

AVR Microcontroller, C

- Implemented ADC and timers to control LED brightness proportional to potentiometer input.
- Configured dual timers for interrupt-driven ADC sampling and PWM generation at variable frequencies.

Personal Portfolio Website

July 2024 - September 2024

HTML/CSS, JavaScript, React.js

- Created dynamic and interactive web application with React Framework.
- Implemented seamless user experience across various devices with responsive design principles.
- Achieved a clean and modern user interface with a focus on intuitive navigation and accessibility.
- Integrated a contact form using Email.js to enable users to send messages directly from the website.

IoT Wireless Image Display System

June 2024 - August 2024

ESP32, Arduino, C++

- Developed an IoT image display system using ESP32 with an LCD screen utilizing the SPI interface.
- Integrated Adafruit libraries for efficient graphics rendering on the LCD.

SKILLS & INTERESTS

Programming Languages: C, C++, Verilog, Python, React.js.

Tools: Git, VS Code, Arduino, Figma, Adobe Lightroom.

Languages: English (Native), Japanese (Native).

Interests: Photography, Cooking, Lifting, Music, and Working on Cars.
